

# CERTIFICATE

**Institute Construction and Environment (Institut Bauen und Umwelt e.V.)** and its members are committed towards sustainable building. Joint projects focus on analysing the sustainability of building products across their entire life cycles and on the basis of scientific principles. Transparent disclosure of all information including the ecological balance sheet data is performed on the basis of internationally agreed standards such as ISO 14025, ISO 21930 and EN 15804.

Thanks to their responsible commitment, our members stand for maximum quality demands as regards future-oriented, sustainable building.

Our member RÖHR + STOLBERG GmbH

is a certified partner for sustainable building.

Königswinter, 22 June 2009

Prof. Dr. Ing. Horst Bossenmayer (President)
